DANH VUONG | Full Stack Web Developer

vtdanh0701@gmail.com ● (206) 503-6404 ● danhvuong.com ● github.com/vtdanh0701 ● linkedin.com/in/danh-vuong

Full-stack web developer with broad experience in modern web technologies. Specializes in React, JavaScript, and the MERN Stack. Moves quickly to adapt and master new technologies.

SKILLS & PROFICIENCIES

- ➢ Front End: React, HTML, CSS, JavaScript, EJS, BootStrap, Materialize, SASS
- ➢ Back End: NodeJS, Express, Python, Django, Postgres, MongoDB
- ➢ Adobe Creative Cloud Software including Photoshop, Premiere Pro and After Effect

PROJECTS

iCepi – Food Recipe App

- Developed and delivered a responsive web app that helps the user find recipes by the ingredients.
- Designed and engineered the front-end in React with custom CSS.
- Implemented the backend in Node.js and Express, using MongoDB database.
- Used Axios to retrieve data from Spoonacular API and connect all data to the user interface.

Scalakor - Music Theory App

- Created a web app that aims to help users find the right scale to improvise over a chord.
- Developed, designed and implemented a full-stack app in Node.js, Express, and EJS. Used VexFlow API for music notation.
- Implemented a SQL database using Sequelize and PostgreSQL.

Space Craft - Space Shoot 'Em Up Game

- Created a retro space shooting game in the web browser using HTML, CSS, JavaScript and Canvas.
- Designed a modern-retro feel for the user interface.

EDUCATION

General Assembly, Full-Stack Web Development Immersive   2019

- Full-stack web development immersive program covering modern, in-demand programming technologies and fundamental Computer Science knowledge.
